

Pallet Rack Mover

Multi-Purpose Moving Solutions

The PRM Pallet Rack Mover from Gondola Train features an innovative pop pin locking system, making it the quickest & easiest system on the market today. No tools or removable pins, just click, lift, and roll. Move retail & warehouse racking with greater efficiency and confidence with the help of the Gondola Train PRM!

We can provide customized rental options to fit your specific project needs.

MOVING SYSTEM BENEFITS

- Move fully assembled, partially loaded racks
- Snap pins eliminate need for tools
- Only two primary working components

COMMON APPLICATIONS

- Warehouse Reconfiguration
- Retail Remodel
- Wide-Span Steel Racking
- 2 ½" & 3" Wide Steel Racking

System Includes

Lift Jack

Jack used to lift fixtures. The Jack has a permanent transport wheel that provides unassisted upright stability and allows the jack assembly to be rolled/relocated without tipping.

Snap Pin Saddle

The snap-pin saddle allows for a greater range/flexibility to position the saddle from 8"-28". The snap-pin saddle has four alignment pins for easy visual alignment of the jack to the saddle.

Portable Job Box

Securely packs the PRM system for shipping, storage, and ease of use on the job site
